## Home Page

REWARDING RECYCLING constitutes the authorized body for organizing and operating the Collective System of Rewarding Alternative Packaging and Waste Management and Recycling in Greece.

REWARDING RECYCLING mission is to organize, develop and operate at a national level its Collective System, pursuant to Law 2939/2001 'Packaging and alternative management of packages and other products-Establishment of a National Organization for Packages and Other Products Alternative Management and other provisions' and the ministerial decisions and relevant provisions for the enforcement thereof.

As a national agency, REWARDING RECYCLING is developing by setting up and operating Rewarding Recycling Centers, consisting of cutting edge technology for 'Sorting at Source' empty packages. Similarly, the Collective System is applying specific actions for packaging materials recycling.
