

## Press Release

### **Envipco Secures the Preferred Technology Supplier Relationship with the Oregon Beverage Recycling Cooperative (OBRC)**

**Amersfoort, The Netherlands – Oct 20, 2021** – Oregon Beverage Recycling Cooperative (OBRC) has reached an agreement with Envipco to provide Reverse Vending technology as they look to enhance the customer experience and expand RVM machines to a greater network of redemption points in Oregon. Envipco's wide technology portfolio delivers automated recycling options for all classes of trade in the State. In particular the company's small footprint, high compaction Flex platform is right-sized to bring automation benefits to Oregon's smaller square foot retailers. The company expects the volume of RVM equipment needed will range from 300 to 500 machines deployed over the next three years.

OBRC is the industry steward of Oregon's nationally recognized beverage container deposit program providing fast and convenient returns through the OBRC BottleDrop program and Reverse Vending. OBRC provides beverage container recycling services to over 2,500 retailers state-wide.

Envipco is creating a cleaner world for future generations through our recycling technologies. We have a clear strategy for accelerated growth, and are committed to deliver excellent products and services to our customers, tangible results to our investors, and a great place to work.
